

All motorized users should pick up a copy of the Sawtooth National Forest Motor Vehicle Use Map that shows which roads and trails are open to motorized use. The map is free at Sawtooth National Forest offices and also available as an Avenza map that will show users in real time where they are in relation to the map.

The Sawtooth NRA will be updating its road condition report as information comes in and sending it out to interested parties weekly. Visitors can also call the Sawtooth NRA Headquarters at 208-727-5000, Stanley Ranger Station at 208-774-3000, or visit us at www.fs.usda.gov/sawtooth for information.

Road	Inspector	Inspection	Date
North Fork FS Road# 146	SNRA	Fine all the way to the end, a few wet spots	6/5/2019
