

Trail Reports for Sawtooth NRA

****Unless otherwise reported-expect high creeks, snow levels at 9,200 ft. and trees on trails****

Due to high winds in the area, if trees were previously reported removed there may be trees down on the trail in the future

Conditions are always changing on the Forest

Date	Name	Trail Number	Trail Segment	Conditions, Hazards and General Notes on Trails
07/05/19	SRS	092	Alice Lake - Redfish Lake Trail	- Past Hellroaring towards Farley- Hellroaring to Imogene has small patches of snow - Hikers reported the trail to Edith lake (from Lake Imogene) looked to be deep in snow (they were not heading that far up and did not attempt).
